

SO, WHAT'S FOWLING?

Fowling is the act of throwing a football at your opponent's ten bowling pins until someone knocks them all down. Yes, really.

FOWLING 101

STRIKE!

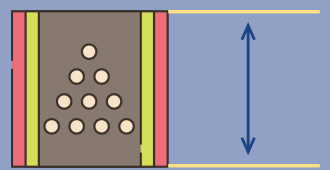

If any player's first throw knocks all ten pins down, that's a strike. Game over!

BONK?

If any player's first throw knocks the center pin off the board without knocking down any of the nine other pins, you win right away!

WHERE SHOULD I STAND?

Pick a line to stand behind based on how far you think you can comfortably throw a football over and over, or how sore you want your arm to be tomorrow.

NO DEFENSE

It's tempting, but you can't swat away your opponent's throw in the air or on the board. Once it goes beyond the board, make sure you catch it before it knocks down any pins!

MOST IMPORTANTLY, CAN I DRINK ON THE COURT?

Of Course!
